

**FORS Montenegro – Foundation for the Development of Northern Montenegro** is a regional development organisation, established in 2006 as a non-governmental, non-profit foundation. FORS Montenegro implements projects in close collaboration with stakeholders from the country and the region, including state and local authorities, CSOs, educational institutions, media, health centres, international organisations, institutions for emergency management, cultural centres, etc.

Since 2006, FORS Montenegro has developed and implemented numerous projects with a wide range of topics funded

by various international and national donors, among which the most important are: EU, USAID, UNESCO, US Embassy, UNDP, SNV, Lux Development, CARITAS, Milleukontakt International, national Government and its ministries and local authorities. We develop our projects by identifying problems in local communities together with local and national authorities, CSOs and citizens and proposing adequate solutions. The largest contribution is now provided by the EU and FORS has implemented 20 projects funded by this donor (some of them are in progress), while the second largest donor was USAID.

**Main sectors of works:** environmental protection, socio-economic development, agriculture, tourism, protection from natural and man-made hazards, health, education, culture, etc.

**Main activities:** trainings, conferences, study visits, workshops, analysis and researches, surveys, development of studies, procurement of equipment and services, construction and renovation of objects, PR activities publications, etc.
